

A Business Solution from Microsoft

Microsoft Dynamics NAV and Office 365

The complete solution to keep your business going and growing.

Whether you produce goods, sell services, or move merchandise, you depend on your people, and your people depend on the tools you give them to manage your key business processes. Many companies reach a tipping point where the very tools and systems that supported their initial growth begin to hinder their ability to act with agility and insight.

<Partner name here> delivers a complete solution for your business to help you manage your financials, supply chain, and operations—without being a burden to your people or a risk to your cash flow. Our knowledge of Microsoft solutions for business combined with our experience working with <enter target customer details> is the combination you need to support your growth ambition.

Microsoft Dynamics NAV and Office 365—Better Together

Running a business is easier when the everyday communication tools in Office 365 come together with your enterprise resource planning (ERP) solution. Let us help you connect your people, processes and systems to make smart decisions quickly and proactively.

"I now have a 360-degree view of the progress of sales, rather than a blinkered view that only allows me to react six weeks later."

- **Mark Barefoot**,
Director, P2P Logistics

Work better together.

Your people are your greatest asset—and it's our job to make sure they have what they need to work effectively. Microsoft Dynamics NAV and Office 365 help your team connect in real time, collaborate on documents and files, and seamlessly share reports and other information, whether they are in the office or on the go.

"The solution optimizes the work processes that typically steal time in a smaller company like ours."

- **Vilhelm Jensen**,
Director, Graphical
Production Facilities

Get going faster.

You don't have time for lengthy implementations and disruptions to your business. Microsoft Dynamics NAV and Office 365 are quick to implement and adopt. RapidStart for Microsoft Dynamics NAV supports faster, lower-risk implementations and migration of existing data so you can be active in hours or days instead of weeks or months. With familiar Microsoft software, your staff will have the insight to start working immediately and you'll have peace of mind about the security of your critical data and applications.

"It was impressively fast and took place without any major problems."

- **Mikkel Jonsen**,
Global NAV Support,
Nilfisk-Advance

Grow efficiently.

Improve flexibility and responsiveness and grow your business while spending less on IT. Microsoft Dynamics NAV and Office 365 run on Microsoft Azure. However, if you prefer to deploy Microsoft Dynamics NAV on your servers, we'll still help you get the same powerful solution with the same interoperability with Office 365. We start with what you need today and easily modify as your business needs change.
